

WARNING

CAL Prop 65 Notice & Warning

January 03, 2020

BRP Manufacturing is fully committed to providing safe and environmentally friendly products to the market place. Our business model reflects our desire to reduce, reuse and recycle materials that would otherwise be discarded and landfilled across the country.

The California Safe Drinking Water and Toxic Enforcement Act, better known as Proposition 65, lists in excess of 1000 chemicals believed to cause cancer and / or birth defects or reproductive harm. Proposition 65 requires manufacturers to provide a clear and reasonable warning before knowingly and intentionally exposing anyone to a listed chemical. A clear and reasonable warning indicates that the manufacturer has:

1. Evaluated the exposure and concluded that the product contains a listed chemical that exceeds the “no significant risk level” as defined in Proposition 65, or
2. The manufacturer has chosen to provide warning simply based on the knowledge of the presence of a listed chemical without attempting to evaluate exposure.

Based on the ever increasing volume of “listed” chemicals and the extensive and growing array of our products in the market place, BRP Manufacturing Company has chosen to offer this warning based on the premise that one or more of the chemicals listed in Proposition 65 may be an ingredient in some of our products. While the exposure levels may be below levels of concern, or non-existent, it is not feasible for us to conduct evaluations of all chemicals in all products.

One or more of the following materials may be used in formulating products provided by BRP Manufacturing Company:

Toluene	108-88-3	Folpet	133-07-3
Mercaptobenzothiazole	149-30-4	n-Hexane	110-54-3
Naphthalene	91-20-3	Ethylene thiourea	96-45-7
Di(2-ethylhexyl) phthalate	117-81-7	Antimony oxide	1309-64-4

Many of these ingredients are processing aids and could / should exist in residual amounts if any. However, based on an abundance of caution, BRP Manufacturing has elected to provide this warning notice. For further information please go to: www.p65warnings.ca.gov.
